UNION AMALGAMATED EXTENSION PREPARES TO BEGIN OPERATIONS

One of the interesting new features on 'change is the Union Amalgamated Extension Mining company of Manhattan, an issue that jumped into favor almost overnight. There was such a demand for the security that heavy transactions at constantly increasing prices were made before the certificates were printed or the stock listed.

Manhattanites were the heaviest buyers, as they knew the ground and had confidence in the management.

The Union Amalgamated Extension Mining company owns the Buckboard and Charley Boy claims and the Sunday fraction, adjoining the Union Amalgamated and Dexter White Caps on the west, giving approximately 29 acres, with about 1600 feet of the lime belt on its east and west strike, with a quartzite hanging on the contact.

This property has already put out several shipments of ore running from \$30 to over \$50 a ton.

TEUTONS TELL THE FRENCH PEASANTS

(Continued from page one)

Paris was to fall within a week, and would be pillaged and burned.

Later they were told "Paris is dead," and the Germans added insult to injury, the old priest exclaimed, by pronouncing it "Paris" instead of "Parea."

The inhabitants of Vayennes submitted to enemy domination with heads erect and perfect calmness that the Germans could not understand.

"We will break your pride," Prussian officers declared, "and make you slaves. All France shall fall at our feet."

Pale, drawn and old, as was the Cure, nevertheless, he seemed imbued with sudden, defiant strength, as he raised himself to his full height and continued:

"I told them that never again would France yield to such a foe. They taunted us and said they would crush Europe in a few months. We replied that France would fight five years and more if necessary. Sometimes they laughed scornfully at this, but lately they could not contain their fury that the war was lasting so long."

"And did the people suffer much?" he was asked.

"Ah, yes," he replied, "our food did not last long. Then we had to work for the Germans, and take what they gave us. Sometimes it was so bad that even the cats refused to eat. Then the Americans began to feed us and that saved thousands of lives. Our people are very grateful."

PAPER HANGER CAUGHT AFTER BEING PAROLED

Frank Hammond, a prison alias, whose right name is Frank Bartley, and who was recently paroled from prison and immediately began his livelihood of issuing bogus checks. He succeeded in cashing checks to the amount of \$173.50 and then came to Tonopah and started his "paper hanging" profession, but got no clients. Jack Grant, chief of police, was asked yesterday to take Bartley into safe keeping by Sheriff Neil McLeod, of Lyon county, who arrived on train No. 24 this morning and returned with his prisoners on train 23.

which were taken out by leasers from shallow workings in the early days of the camp.

With the exception of milling the second grade dumps, no work has been done, except assessments, since that time.

The hundred foot shaft is now being equipped with a 20-horse-power electrical hoist and a full electrical outfit. The company contemplates immediate purchase of a compressor which will afford means for more rapid development. This is a Wittenberg-Mushett proposition, put out and controlled by men who have stayed with Manhattan for years and who have been most largely instrumental in developing the resources of the district and bringing the camp back into its own.

Along the lime belt that traverses the property there is showing a very strong quartz cropping and the first work will be to prospect this showing, together with shaft development.

FIRE CHIEF NAMED BY TOWN BOARD

Frank Henderson named by town trustees at meeting this morning.

The town board this morning met to consider the appointment of a chief of the fire department and concluded by the selection of Frank Henderson, who has been employed by the Lothrop-Davis company. The other applicants were Clarence Mays, Al Vincent, King Pierce, J. A. McCabe and Louis Gregovich.

Henderson is well known as a former resident of Eureka, who has been in Tonopah for several years. He succeeds Henry Kelly, whose resignation was accepted three weeks ago. The position carries a salary of \$150 a month and free house rent and free water.

The town board realized that the appointment was one of the most important coming under their jurisdiction and gave special attention to the qualifications of the several applicants as it was felt that the town had suffered on several occasions through the incompetency of the fire department, which is held responsible for the destruction of some of the best buildings in the camp.

Should Mr. Henderson be the right man in the right place, the Bonanza will give due credit, and should Mr. Henderson fall in his duty the Bonanza will be the first to criticize, as the taxpayers are entitled to the best that can be procured in the way of a fire chief.

"I told him that he surely would be absolved, for he was not to blame. There were others of higher station who must make answer to their God."

NO INTERNMENT CAMPS

(Continued from page one)

"There is no such plan in contemplation," he replied. "All resident aliens who are obedient to our laws will be perfectly safe from interference."

Asked if that applied to German reservists, the secretary said: "It applies to everybody who is here or who may be permitted to come here, and who behaves in accordance with our laws while here."

In other quarters it was indicated that German residents might be registered in the event of war, in order that the government could have some knowledge of their movements and make certain that no person guilty of misconduct shall escape justice.

Another phase of national preparedness prompted Mr. Baker to volunteer a suggestion as to the course which men and women who are seeking an opportunity to serve their country might follow. Every day has brought several score of letters to his desk asking how personal service might be rendered.

Mr. Baker pointed out that the regular army, national guard and officers reserve corps offered opportunities to men who desired military service. The reserve, he explained, offers a wide field of choice, since the staff corps divisions were composed of men specially trained in civil life in the work they would perform in war times.

In addition to this, the secretary added, the mobilization of national resources being conducted by the council of national defense furnished every man engaged in business or trade with a way to place his services at the nation's disposal. The plan being worked out, he added, was the co-ordination of every industry so that the government, through a small committee of organization, could put its hand upon any part of the widespread activities. He urged that men get into touch with their associates in trade so that the committee groups would be able to speak for all elements of any trade or industry when the time came for government service.

For women, many of whom have been included in his correspondents, the secretary suggested affiliation

PLACER MINING SEASON PROMISING

SEASON'S OUTLOOK IS BETTER THAN AT ANY TIME SINCE 1907

R. H. Ernest, superintendent of the Round Mountain Mining company says he will be later than usual starting placering on an extensive scale, owing to the cold weather of this month, which has kept back the water in the upper end of the various canyons and draws, feeding the pipe line of the Round Mountain Mining company. Nevertheless this is a happy augury for the summer's work since it means that the season will be prolonged and the saving much greater than the last two years. While the snowfall has been less than normal it came early and was preceded by rains that soaked the earth and thus insures a better flow when frost releases its grip on the frozen moisture and lets the streams come down the canyons. Last year the precipitation was greater but the bulk of the water came out almost at once following a heavy spring rain that washed the snow into the gulches and the result was that the placering season was curtailed. Operations will begin about the first of April.

FIRE CHIEF NAMED BY TOWN BOARD

FRANK HENDERSON NAMED BY TOWN TRUSTEES AT MEETING THIS MORNING

The town board this morning met to consider the appointment of a chief of the fire department and concluded by the selection of Frank Henderson, who has been employed by the Lothrop-Davis company. The other applicants were Clarence Mays, Al Vincent, King Pierce, J. A. McCabe and Louis Gregovich.

Henderson is well known as a former resident of Eureka, who has been in Tonopah for several years. He succeeds Henry Kelly, whose resignation was accepted three weeks ago. The position carries a salary of \$150 a month and free house rent and free water.

The town board realized that the appointment was one of the most important coming under their jurisdiction and gave special attention to the qualifications of the several applicants as it was felt that the town had suffered on several occasions through the incompetency of the fire department, which is held responsible for the destruction of some of the best buildings in the camp.

Should Mr. Henderson be the right man in the right place, the Bonanza will give due credit, and should Mr. Henderson fall in his duty the Bonanza will be the first to criticize, as the taxpayers are entitled to the best that can be procured in the way of a fire chief.

NORTH STAR SENDS CARLOAD TO MILL

This morning the North Star Mining company shipped one carload of ore to the West End mill. This ore, which will average \$41.17 per ton, came from stope No. 2 on the 1050 level east of the shaft, near the Belmont mine. There is two feet of this ore in the stope and the raise from the 1133 has followed this ore where they are about to break through to the 1050 level. This ore body will enrich the North Star treasury by many thousand dollars and is proving, under the able management of Mr. Lowe, that the North Star is becoming one of the great producers of the district.

GENERAL DEMAND FOR ADVANCE IN RATES

(By Associated Press.)
WASHINGTON, D. C., Mar. 27.—Railroads of the south and southwest have joined eastern and western lines in requesting an advance in freight rates.

with the local agencies organized to enroll the women power of the nation. The national security league, the national woman suffrage association and the national association of women's clubs, he said, were all engaged in this work, and the defense council, to which their services have been offered, has arranged that each shall have a separate field.

As to the place skilled labor may find in the great national movement to meet the emergency Mr. Baker said the department of labor and the civil service commission, were co-operating in securing such for the government's arsenals and navy yards. Any mechanic seeking a place in the preparedness program, he added, could readily find his opportunity through either of these agencies.

LIBERTY THEATRE

ROBERT WARWICK and GAIL KANE in "THE HEART OF A HERO" in six parts. A visualization of the life of Nathan Hale. Hearst International Cartoon and scenes of Yellowstone Park.

TOMORROW
"The Bugler of Algiers." Bluebird production featuring Ella Hall.
First episode of "Patria" to be repeated tonight.
Prices 10c-15c

Thursday: "The Little Girl Next Door."

DORRIS OF MANHATTAN WILL RESUME WORK

REORGANIZED COMPANY IS FINANCED TO TAKE UP WORK OF DEVELOPMENT

The Manhattan Dorris Mining company, a reorganized company to take over the property of the Manhattan Forked Stick Mining company, held an important meeting in the Mizpah Hotel last night, and the treasury was well financed for all immediate development requirements. The property is well equipped and work will be resumed at once. The treasury was replenished by voluntary subscription from the large stockholders. This ground was originally examined by Dr. Jenney, probably the most able geologist who ever examined the Manhattan district, and it was on his recommendation that the ground was originally purchased. The north contact of porphyry and lime passes directly through the ground, which lies north and adjacent to the Mustang and Thanksgiving. The crosscut, which is now out some 50 feet from the 120-foot level, will be continued and it is expected the ledge will be reached within 40 feet.

The officers of the company are: C. F. Wittenberg, president; Thos. Lindsay, treasurer and vice-president; Chas. Ducheneau, secretary, who, together with H. H. Atkinson and L. L. Mushett, form the directorate. The stock will be listed on the San Francisco stock exchange at once.

EYES OF THE WORLD AT BUTLER THEATER

The first two performances of "The Eyes of the World" was greeted by crowded houses and it is almost superfluous to say that everybody went away highly pleased with the treat. The famous story was most refreshing in its attention to every detail of the early life in Imperial valley and the ideas of the author was pictured in wonderful fidelity. The last appearance of this picture will be this evening, when another packed house should greet the film which has been pronounced one of the most wonderful romances of the age. The Butler Theater will probably hang out the "Standing Room Only" sign early in the evening.

DEATH OF TONOPAH ENGINEER ANNOUNCED FROM AURORA

Russell Williams, of the Tonopah Hardware company, received a wire this morning asking for information about L. M. Stephens, a young mining engineer who formerly resided at the Montana Club. The wire fails to state the cause of death, merely mentioning that he had been killed. Stephens was 35 years of age and a university man who was supposed to be well connected in England where he was born. At one time he worked in the Belmont and afterwards operated a copper lease north of Tonopah. He left here in September.

GERMANS CONCEDE ADVANCE OF ENTENTE

(By Associated Press.)
BERLIN, Mar. 27.—The war office announces that entente troops have occupied the French town of Roisel after repeated efforts. The Germans gave way to avoid being outflanked in the forest between Oise and Coucy le Chateau.

MRS. M. ARCHER who has been visiting her sister, Mrs. Charles Wittenberg for the last three months, left for her home this morning in San Francisco.

W. S. JOHNSON, president of the Zanzibar Mining company of Manhattan, returned to Reno this morning.

NOTICE ROYAL ARCH MASONS

A regular convocation will be held at Masonic Temple, Wednesday evening, 7:30.
I. C. ARNOLD, Secretary.

PERSONAL

MRS. S. C. SMITH, of Manhattan, is visiting Tonopah friends.

MAURICE M'ILLAN came in from Reno this morning.

C. F. WITTENBERG and L. L. Mushett left this morning for San Francisco on mining business.

SENATOR KENDALL and wife, R. B. Govan, and George Ross, motored to Manhattan this morning.

C. L. TARASH, proprietor of the Royal Cafe at Manhattan, was in Tonopah today purchasing additional fixtures.

HARRY G. HUMPHREY returned to Reno this morning after having taken a flying trip to Manhattan.

R. H. ERNEST, superintendent of the Round Mountain Mining company, came in last evening from the mine.

WILL REBORI left this morning for Reno to take deliveries of a flock of auto trucks for the Louisiana Consolidated Mining company.

CLIFFORD MCLELLAN, one of the old timers of Manhattan, who had been looking over his interests there, left this morning for San Francisco.

GEORGE W. CLARK and Harry McNamara went to Klondyke this morning to inspect a mining property.

R. E. MORTON, representing the Mergenthaler Linotype company, was a passenger today for San Francisco after inspecting the various plants in Tonopah using the Linotype.

NYE COUNTY NORMAL HAS A FINE CLASS

The young teachers who go out from this normal school in Tonopah will be very well prepared to manage the different problems of rural schools. Mr. Roy L. Cross, teacher of manual training, has just undertaken to give them a course in that subject. Mr. Cross is a specialist in that branch, having taught with great success both here and in the east.

The students who will take the work are the Misses Katherine Bohm, Irene Dunn, Pauline Dunn, Helen Kinsella, Cora Johnson, Lillian Neff, Louise Parker, Laurel Hill, Fannie Holmes, Louretta Walsh and Meadames Fleming, Toland and Schmidt.

NATURALIZATION DAY IN THE LOCAL DISTRICT COURT

There was a swarm of applicants for naturalization papers this morning when Judge Hoesy entered
